### Israeli Army Bombing of Nasser Hospital in Gaza Constitutes a Grave Violation of Human Rights

Vienna – Two waves of Israeli airstrikes on Nasser Hospital in Khan Younis, Gaza, on 25 August 2025 have resulted in the deaths of 20 civilians and injuries to more than 80 others, in what human rights organizations are denouncing as a flagrant violation of international law.

According to *The Boston Globe*, the first strike hit the hospital's operating rooms. The second strike occurred shortly after, when emergency responders and journalists had rushed to the scene.

Among the dead are five journalists, including Ms. Maryam Daga, a photojournalist with the Associated Press, and four others working with Reuters, Al Jazeera, and Middle East Eye.

Reuters has further reported that one of its correspondents was killed while broadcasting a live video showing doctors struggling to save the life of a severely malnourished child.

We, the undersigned human rights organizations in Vienna, consider this attack a grave violation of international human rights and humanitarian law, in particular the right to life and the protection of civilians in armed conflict. We strongly and unequivocally condemn this assault.
